

The White Label Roaming Portal

Provide your roaming customers with the most complete roaming and travel information source

Summary Service Description

Provide your end-users with a handy tool to access everything they need to know about roaming and travelling abroad

Travelling Connect introduces the Roaming Portal – the first All WorldWide Roaming Information Source, a database of the essential roaming and travel information including GSM and CDMA roaming tips, coverage maps, pricing, WiFi roaming, departure and arrival information, travel applications, accommodation information and much more!

Build Positive Customer Relations

The Roaming Portal, branded under your name, will be an excellent custom care solution for your customers who travel abroad: your end-users will definitely appreciate this useful directory with practical communication and travel links.

Secure your Revenue and Cross Sell your Products

The Roaming Portal will be a great direct communication channel to promote and cross sell your products: use the portal to announce your news, latest promotions and special offers.

Through insights and tips of using the services the portal will also help you to secure your revenue: for example, knowing how to use GPRS abroad or airlines where roaming on board is allowed your subscribers will start exploiting new channels of communication (leading to the increase of the roaming traffic).

No operational hassle

You can offer the most complete roaming and travel information source without any use of your internal resources: Travelling Connect will develop the front and back ends of the portal and will maintain it regularly.

The most complete database of roaming and travel information.

Service Features

The White Label Roaming Portal will be made in the look and feel of your brand with the consideration of the following:

Operator Related Information

Information about using roaming service abroad; your roaming tariffs and roaming promo-actions; information for the guest roamers.

General Roaming Information

GSM and GPRS roaming tips; coverage maps; roaming on cruise ships and in airplanes; telephone rentals.

Other Means of Communication

Satellite, Wi-Fi, CDMA.

Practical Travel Links

Departure and arrival information; accommodation links and useful travel applications.

Country Specific

The Portal can be also made country specific with links and information concerning a particular destination.

An impression of how the White Label Portal could look like (fictional example)

There's no better way to fly.

About Travelling Connect

Travelling Connect is the leading global provider of loyalty management services to the telecommunication industry. Its services help mobile operators to improve the bottom-line of their international-roaming business. Travelling Connect achieves end-user loyalty to the networks of its clients by closing partnerships with (international) customer loyalty programs enabling Travelling Connect to designate frequent-traveller miles or points to an ever increasing audience of international travellers worldwide (currently well over 180 million business travellers).

Travelling connect was established in 2004 and is a privately held company with its headquarters and infrastructure in Amsterdam, the Netherlands.

Other services of Travelling Connect include the Inbound Roaming Service, Outbound Loyalty Service, Roaming Awards, Mobile Travel Rewards, MobiMiles and Qroam Auction and Transaction Platform.
